

## **Message /Content**

"Come and visit me in < name of your city >!"

Write a short text to introduce your city to your guests or future visitors giving basic info (population, weather, flag, and capital) and describe the sightseeing, the typical food and pastimes of young people.

Include fragments of information about a famous person or a monument, landscape, some characteristics or something worth visiting in your town.

The objective is to encourage students to learn about your town in an interesting way different from the usual description you would find in a brochure.

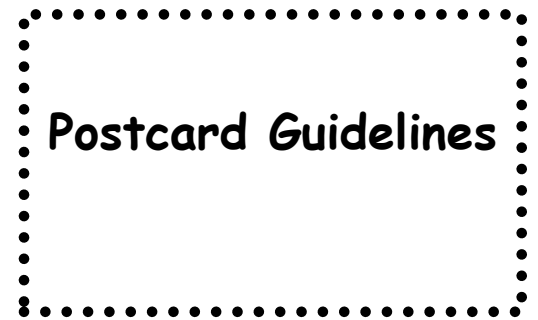

Please write in English and use your own words!!

## **Design:**

Make your own postcards with a drawing or use a picture or use a photograph that you have taken; you can have 3 photos or more, you may use a computer to design or make a collage, but only use one side of the card for illustrations.

Material found online must be properly referenced with the URL. Any other sources must also be referenced

Think of the best way to illustrate your message. Create a title or slogan to support design - for example a poem or a quote.

### **The size of the postcard:**

Size: Min. A6 - max. A4

The material: solid paper for postage and not heavy.

All postcards will be presented in a local exhibition in April 2010. In May the top five postcards will be sent to Poland to represent your school for the BIG international exhibition.

At the project meeting in Poland, 26<sup>th</sup> - 28<sup>th</sup> of May 2010, the most creative ones will be honoured.

The postcards may also be presented on the Internet or used for future publications on Comenius and eTwinning activities.

### **Signature**

Indicate authors' names by signing your card.

Good Luck from r.e.a.l. in Trondheim.
